Lighting -  
Let us show you the difference.

**TEGO**Connect  
LIGHTING AND POWER

OUR ORIGINAL. YOUR SUCCESS.

# SEE THE DIFFERENCE

The illumination of your shelves gives you a variety of possibilities. In addition to perfectly lit products with LED busbars on the underside of the shelves, you can also connect everything that can be operated with 24 volts. Tablets, electrical pricing, and monitors are just a few ways that you can integrate into your electrified shop world by using TegoConnect. Your existing shelves can be easily retrofitted and at the same time, TegoConnect offers you a flexible product presentation, since the illuminated shelf fittings can easily be moved.

**TegoConnect - The versatile solution for every industry!**

## SIMPLE - FLEXIBLE - HIGHLY EFFICIENT

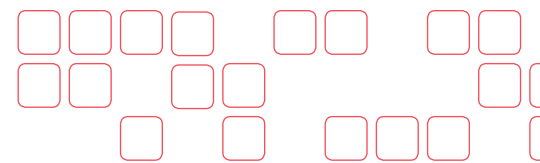

The supply line from the LED light to the busbar can be magnetically attached to a brackets. The integrated coil block makes it easy to cover shelf depths from 270mm to 570mm.

The filigree adapter magnetically surrounds the external busbar system and thus connects the LED lighting of the shelf to the busbar.
